I am writing this report after the cut-off date for distribution prior to the meeting. This is due to the condition of the President, Henk Meertens of Australia, who is unable to attend to CASI duties at present due a continuation of the medical condition referred to in his President' report last year.

Henk has asked me to convey his best wishes to all his colleagues, and to thank you all for the assistance during the year.

The results of the Commission's work are reflected in the agenda distributed to date, together with a report to be distributed with this report in regard to Agenda item 7 – FAI Casualty Guidelines.

Items for discussion are indicated on the agenda. However, I will draw your attention in particular to Item 14, the future of the Air Sport General Commission. I would ask all delegates to review the EB proposal outlined by the FAI President in his September letter to disband CASI and refer matters regarding the SC General Section to the ASC Presidents Group, and to establish an Appeals Board.

No appeals were dealt with during the year by CASI.

On behalf of the CASI, I wish to thank those who participated in CASI work during the year, whether as a Bureau member or as part of a Working Group. It is pleasing to see the work that is carried out by such a dedicated group of volunteers with such a broad range of expertise. FAI is fortunate to be able to draw on such people to carry out some of these important, but often "below the radar" tasks.

On behalf of CASI, I would also like to thank the FAI office staff for their support of the CASI function and for making changes as required to the FAI Sporting Code.

I would also like to make a special mention of John Aldridge, who, until his illness a few months ago, was an active participant in CASI affairs and who provided valuable expertise and advise.

I am sure all CASI members join me in extending best wishes for the future to both Henk and John.
