Apology – due to my period of incapacitation earlier this year for medical reasons, I was unable to fulfil my obligations as President of the Air Sport General Commission for an extended period of time. This caused considerable disruption to the normal work processes in the Commission – I would like to thank all my colleagues for their good wishes and considerable assistance in ensuring that the essential work in the Commission was generally able to be completed during the past year.

#### **Appeal lodged by the Commissao de Aerodeporto Brasileira (CAB) against decisions made by the organiser and the International Jury of the 2009 World Air Games 2009 (Ballooning) held in Torino, Italy June 2009.**

Following the receipt by the Air Sport General Commission of the above appeal and as required an International Jury was constituted to hear the appeal and to advise their decision. During the appeal process, issues arose regarding due process and communication which in part will be addressed at the next meeting of the Commission at the General Conference in Dublin. The final decision of the Tribunal was communicated to all parties. Subsequently the Secretariat was advised that the matter was to be referred to the Court of Arbitration for Sport. That action has since been terminated.
