Lithuania's Bid to host the 12th European Gliding Championship in 2004 .

Lithuanian Gliding Federation together with the Lithuanian Aeroclub, the Department of Physical Culture and Sports, the government of the Kaunas County and Kaunas aviation sports club propose to host the 12th European Championship in FAI class in 2004.

Kaunas aviation sport club in Pociunai was held the 1-th World Women Gliding Championship. The Lithuanian Department of Physical Culture and Sports, the government of the Kaunas County was grant for this event 150.000,-USD. All these money was spend to arrange the club base.

The Championships would be organized in the airfield of Kaunas aviation sports club in Pociunai. This airfield hosts annaul Nationals and it used to host 1st World Women's Gliding Championships. The club is able to accommodate in airfield 60 people in normal conditions and about 60 people could be accommodated in wooden cottages without essential conveniences. A camping would be installed with water, electricity, toilets and showers. In the camping enough place for about 50 caravans and 50 tents.

The expenses of the participants will be minimum because we don't need additional money for base arrangement and preparation.

Lithuanian Aeroclub and Lithuanian Gliding Federation hope that their offer to hold the 12th European Gliding Championships in FAI classes will find support and at the same time favourable possibilities for promoting gliding in East - European countries will be enhanced.

Faithfully Yours

President of Lithuanian Aeroclub

Stasys Murza

President of Lithuanian Gliding Federation

Vytautas Sabeckis
