

# **REPORT ON 2011 F2 CONTROL LINE WORLD CUP**

The Control Line World Cup was introduced in 1995 for classes F2A (Speed), F2B (Aerobatics), F2C (Team-Racing), F2D (Combat). Perpetual trophies are awarded for all four classes.

There was a small increase in the number of competitors competing in the 2011 F2 World Cup competitions. Total entries increased from 596 to 651 with the largest increase being in F2D. There were smaller increases in F2A and F2B but entries in F2C remained the same as 2010.

Of the scheduled competitions, two F2A, five F2B, five F2C and one F2D competitions were either cancelled or not flown due to lack of entries.

The results from many of the 2010 World Cups did not include the FAI Licence numbers of the competitors, this was much improved in 2011 and I would like to thank the organisers for their diligence in recording these numbers which are so important and which enable the results achieved by all competitors, some of whom share a name, to be correctly recorded. Unfortunately due to the ongoing problems with the FAI licence data base, it has not been possible to verify these numbers.

All the organisers of the 2011 F2 World Cups were provided with a master Excel results file for all four classes to facilitate the submission of the results and pertinent information. Most of them have used the files while some have continued to use their own files which make it much more difficult to collate all the results. I hope that in 2012 everyone will use the files provided.

The results and jury report files were uploaded to the F2 World Cup page on the CIAM website at intervals throughout the season along with the cumulative results at that time for each class. The intention is to archive each year's results for reference. I hope that this will still be possible with the new FAI website.

## **PROTESTS**

The Board of Judges nominated by the CIAM Control Line Subcommittee to rule on any protest concerning the World Cup is composed of Bengt-Olof SAMUELSSON (Sweden), Guido MICHIELS (Belgium) and Peter HALMAN (United Kingdom). No protests were referred to the Board during the 2011 World Cup season.

## **CLASS F2A (Speed)**

In Speed (F2A), Sandor KALMAR (Hungary) won with a total speed for three competitions of 901,5 km/h, followed by Oleksandr OSOVIK (Ukraine) with 889.0 km/h and Ferenc SZVACSEK (Hungary) with 887.1 km/h.

19 competitions contributed to the results in Speed. 85 competitors from 20 nations entered and 77 recorded speeds. A total of 15 juniors entered the World Cup in F2A.

The best supported F2A contest in 2011 was the Czestochowa Cup (Poland) which attracted 20 competitors.

The highest placed junior in 2010 is Mikhail DIZHEVSKIY (Ukraine) who placed 6th overall with a total score of 876.7 kph.

The best speed achieved during the year was by Sandor KALMAR with 301.2 km/h at Sebnitz (Germany).

<b>Total entries</b>		<b>506</b>	<b>523</b>	<b>562</b>	<b>504</b>	<b>529</b>	<b>540</b>	<b>583</b>	<b>619</b>	<b>488</b>	<b>596</b>	<b>545</b>	<b>651</b>	<b>106</b>

The number of competitors has varied slightly over the past 10 years. In 2011 all classes showed an increase above the average. F2D again showed a big increase above the average. Only in F2B did the number of competing countries reduced slightly.

It is of concern that a total of 11 of the scheduled competitions could not count in 2011 because they were either cancelled or they did not meet the entry requirements.

The running of multiple World Cup competitions for the same classes at different venues on the same date should be avoided wherever possible. It makes no sense to deplete competing numbers in this way. Organisers should respect historical dates, which have been used for many years for some international competitions particularly those which are tied into variable bank holiday dates.

There were no F2 World Cup competitions for non-championship classes in 2011.

Peter Halman  
Control Line World Cup coordinator  
6th November 2011
