

PROPOSED AMENDMENT TO FAI GENERAL SECTION

PARAGRAPH 7.7 MULTIPLE RECORDS

Issue Raised by: Chair of the Records and Classes Working Group

Rationale: When the current rule allowing multiple records to be set during one flight (provided the records belong to the same class) was written, it was not likely anticipated that a single record class would be governed by more than one commission/sporting code. For example, Class C (Aeroplane) records are governed by the General Aviation Commission in Section 2 of the FAI Sporting Code, while Class CS (Solar-Powered Aeroplane) records are governed by the Amateur Built and Experimental Aircraft Commission in Section 13 of the FAI Sporting Code. The following proposal is an attempt to eliminate the ambiguity that exists in the current wording.

Current Wording
7.7 MULTIPLE RECORDS. A person may attempt more than one record in the same attempt provided that the records belong to the same Class, are permitted in the Sporting Code concerned, and are controlled by the same verification and certification methods as if they were separate records.
Proposed Amendment
7.7 MULTIPLE RECORDS. A person may attempt more than one record in the same attempt provided that: the records belong to the same Class, <u>and Specialized Section of the Sporting Code;</u> are permitted in the <u>Specialized Section of the</u> Sporting Code concerned; <u>;</u> and are controlled by the same verification and certification methods as if they were separate records.
If Adopted Will Read
7.7 MULTIPLE RECORDS. A person may attempt more than one record in the same attempt provided that: the records belong to the same Class and Specialized Section of the Sporting Code; are permitted in the Specialized Section of the Sporting Code concerned; and are controlled by the same verification and certification methods as if they were separate records.
