

## 2021 Interim Bureau Decisions

DATE	IBD No.	SUBJECT	DECISION
10/05/2021	2021/02	Following the decision by WADA to allow the Mondial 2020 to go ahead in August 2021 and in view of the current world pandemic and the Anti Covid protocol, the Meet Director, the FAI Controller and the Organiser looked at optimising the competition schedule to limit the number of competitors on-site in Tanay at any one time. The proposal splits the events over the two-week period with the first week including Canopy Piloting, 4-Way and 8-Way Formation Skydiving and Speed Skydiving, the second week including all other events except Style & Accuracy which is to be held in Kemerovo.	The ISC Bureau agreed to support the proposal made by the Meet Director, FAI Controller and Organiser and allow this change to the initial bid. The new schedule will be made available as an annex to Bulletin 2 which will be posted in the usual places and will also be sent directly to all ISC delegates. No change will be made to the proposed dates for the Style & Accuracy event to be held in Kemerovo
